How do I connect to the new sewer?

A new public sewer is being installed by Butler County Water & Sewer Department in your area. The Sewer Contractor will be installing a pipe at the front of your property near the street. It is the property owner's responsibility to hire a plumber to install the private sewer pipe into the home. The homeowner is also responsible for abandonment of the septic tank. Plumbers generally charge between \$1200- \$1800 for this work.

The **Butler County Sewer Connection Program**, for those who qualify, will cover the cost of the private plumber.

Homeowners connecting to the sewer are still responsible for paying the **CONNECTION FEE** to the Butler County Water & Sewer Dept. The **CONNECTION FEE** is not covered by this program.

How do I qualify for the Butler County Sewer Connection Program?

Homes must be owner occupied and not have delinquent property taxes. Rental units and mobile homes are not eligible.

To qualify total household income must be below the limits in the chart below. For example...for a family of **three** to qualify... total household income should be **below \$51,300 per year**.

2015 Income Range	Household Size	2015 Income Range	Household Size
\$39,900 or less	1	\$61,550 or less	5
\$45,600 or less	2	\$66,100 or less	6
\$51,300 or less	3	\$70,650 or less	7
\$56,950 or less	4	\$75,200 or less	8

Program funds are provided by the United States Department of Housing and Urban Development (HUD)
